Thurs	13	In 2018, only 22 bear incidents were reported in Yosemite National Park. These numbers are significantly down from 1998 when incidents in the park peaked. YOSEMITE NATIONAL PARK asks for visitors to report any bear incidents and sightings by calling the "Save-A-Bear" Hotline at 209-372-0322 or e-mail yose_bear_mgmt@nps.gov	3:15 PM	dani bear pic		Winter Wildlife Spotting! Bears are still active in Yosemite, so be sure you store all scented items appropriately no matter when you visit Yosemite.   @dcpinko #bear #blackbear #halfdome		*Yosemite Bear Facts // Yosemite Bear Facts -2018 Total Bear Incidents: 22 2018 Total Property Damage: \$1,935 Compared to 1998 (when incidents in the park peaked), bear incidents and damages in 2018 are down by 99%. Bear Activity Summary: Bears are still very active in Yosemite Valley. In about a week, there have been three reported cases of a bear obtaining garbage: from a campsite, a picnic area, and a concession facility. Bears also obtained food from food locker in a campsite, and damaged a grill in a residential area. In fall months, bears need to eat up to 20,000 calories every day to gain weight for hibernation. Because of this, bears tend to be more bold about obtaining calories, and increasingly come into conflict with people. It is safe to assume that each day a bear will wander past your campsite, house, or your parked car. It's each of our responsibility to keep these bears safe and wild by storing all food, trash, and scented items at all times. Red Bear, Dead Bear: So far this year, 16 bears have been hit by vehicles along park roads. PLEASE help protect wildlife by obeying speed limits and being prepared to stop for animals on roads. Fascinating Bear Fact: During hibernation, bears do not eat, drink, urinate or defecate. They are able to recycle the calcium usually lost through excretions back into their bones. Please report bear incidents and sightings: Call the Save-A-Bear Hotline at 209-372-0322 or e-mail yose_bear_mgmt@nps.gov.	[1] According to @yosemitenps, in 2018 only 22 #BearIncidents were reported. That's 99% down from when #bear incidents peaked in the park during 1998. [2] But there is still work to be done to make sure our #Yosemite #BlackBears are safe. [3] #Always store ANY scented items in #BearBoxes or #BearCanisters while visiting #Yosemite. [4] #Obey speed limits and be aware so you can #stop for #animals on roads. 16 #bears have been hit by vehicles along park roads in 2018. [5] And ofcourse, #report all #bear incidents and sightings by calling the #SaveABear hotline at 209-372-0322 or email yose_bear_mgmt@nps.gov	yes		yes	Evergreen Lodge at Yosemite of Groveland, CA says in 2018, only 22 bear incidents were reported in Yosemite National Park.
